California Prop. 65 Statement

This statement is to provide information to satisfy the requirements of the Safe Drinking Water and Toxic Environment Act of 1986, known as Proposition 65. This requires businesses to provide warnings about significant exposures to chemicals which are known to cause cancer, birth defects, or other reproductive harm. For a full list of chemicals of concern, please review a list published by the State of California.

Hughson Nut/**ofi** does not manufacture any food products, or use any additives during processing known on the California Prop 65 list of chemicals.
